CAREER OBJECTIVE

Motivated Computer Science Engineering graduate with a strong foundation in Python, SQL, HTML, CSS, and software development. Seeking an opportunity to apply my programming, problem-solving, and application development skills to build efficient, scalable, and user-friendly solutions while continuously learning new technologies and contributing to organizational growth.

SKILLS

Programming: Python

Data Analysis: Microsoft Excel, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Statistical Analysis

Database: MySQL, SQL

Libraries: Pandas, NumPy, Matplotlib

Frontend: HTML, CSS

Tools: Git, GitHub, Jupyter Notebook

PROJECTS

AI-Powered Phishing Detection

Oct 2025 – Jan 2026

Python, Machine Learning

- Developed a machine learning model to detect phishing URLs and suspicious websites using Python.
- Performed feature engineering, data preprocessing, and classification using Scikit-learn.
- Evaluated model performance and improved phishing detection accuracy through feature selection techniques.

Customer Trends Data Analysis

Feb 2026 – May 2026

Python, MySQL, Power BI, Excel

- Analyzed customer transaction data using Python, MSQl, and Power BI to identify purchasing behavior and sales trends.
- Performed data cleaning, preprocessing, exploratory data analysis (EDA), and statistical analysis using Pandas and NumPy.
- Developed interactive Power BI dashboards to visualize customer segmentation, revenue trends, and support data-driven business decisions.

EXPERIENCE

KodNest

Feb 2026 – May 2026

Data Analysis Intern

- Worked on real-world data analysis projects using Python, MySQL, and Power BI, performing data cleaning, preprocessing, exploratory data analysis (EDA), and visualization to generate business insights.
- Created interactive dashboards and reports in Power BI to communicate analytical findings and support data-driven decision-making.
- Strengthened analytical and problem-solving skills through structured case studies and hands-on project-based learning.

CERTIFICATIONS

- Python for Data Science – IBM Developer Skills Network (Cognitive Class)
- SQL and Relational Databases – IBM Developer Skills Network (Cognitive Class)

ACHIEVEMENTS

- Participated in **HACKABHiGNA**, a 24-hour national-level hackathon focused on Full-Stack Marketing Analytics and Agentic Flow Platforms.

EDUCATION

Government Engineering College

2022 – 2026

B.E. in Computer Science Engineering (CGPA – 8.16)

Talakal, Koppal

Adarsh PU College

2020 – 2022

Pre-University Course (89%)

Hubli

Lions English Medium School

2020

SSLC (94%)

Hubli
